

LIQUID LEDS

THE NEWEST IN LIGHTING TECHNOLOGY

4 Watt CFS Liquid LED replaces 40 Watt incandescent.

Liquid cooling technology provides heat conduction and thermal protection. Effectively reduces the junction temperature.

The Liquid cooling technology increases beam angle and provides uniform illumination.

E27 Base- fits all standard fixtures.

CFS-LQ/A4W/5K

CFS-LQ/A4W

MODEL NUMBER

CFS-LQ/CY4W

Applications:

- Wall Sconce
- Garden and Landscape
- Lawn Lamp
- Casino Marquee
- Stairway, Garage lamp
- Home and Hotel Interior
- Large Multi-Socketed Fixtures

Benefits:

- Long Life- 30,000 Hours
- Compatible to existing lamp base
- Up to 80% Savings in Energy Cost
- Reduces maintenance and labor cost
- Non-Hazardous Waste
- RoHS Compliant

LIQUID LEDS from CFS is a new high power LED lamp readily available for the replacement of 40W, 75W, and 100W incandescent light bulbs when used with MULTI LAMP socket adapter. As high wattage incandescent light bulbs will be phased out according to U.S and worldwide regulation over the next 5 years, LIQUID LEDS offer an unique choice among LED light bulbs as well as CFLs for indoor as well as outdoor lighting applications.

Liquid Lamps available in 4W, (and when used with MULTI LAMP adapter can be: 8W, 12W and 16W) is designed for easy installation and maintenance for both indoor and outdoor applications. For indoor applications, the Liquid Lamp works for both semi and open-semi fixtures. For outdoor usages, it works great as Garden and Landscape lamps as well.

LIQUID LEDS contain no electrical driver, it is not necessary to have a completely water tight sealing; whereas in comparison, current CFL requires a greater degree of insulation from humid or wet environments to operate properly.

LIQUID LEDS also has the advantage of being dimmable with a standard incandescent dimming switch. Furthermore, 0.75 CRI helps to maintain an illuminated interior lighting to be of an atmosphere similar to that of traditional incandescent lamps while saving energy.

LAMP COMPARISON

DESCRIPTION	INPUT WATTS	FOOT CANDLES @ 84"
4W LIQUID LED	3.2	14.4
11W TWISTER CFL	9	2.4
18W TWISTER CFL	14	3.2
15W PAR 30 CFL	13	5.7
16W R30 CFL	16	3.8

CFS-LQ/4J/120V

MULTI LAMP ADAPTER

Our 3 or 4 socket MULTI LAMP ADAPTER gives you the option of increasing your light level with out sacrificing space. The unique design screws into any standard lighting fixture.

LIQUID LED LAMPS

MODEL	DESCRIPTION	WATTAGE	VOLTS	COLOR TEMP
